Suitable for all ages and abilities, no existing Art experience needed. Materials provided.

This class will provide an introduction to Matisse's work, by focussing on his well-known cut-out paintings. We will look and talk about colour, abstraction and how 'The Snail' was made; followed by a hands-on activity when you can make your own collage working together in small groups.

This is a fun opportunity to explore colour, collage and find out more about this artist's way of thinking. Lead by Artist & Teacher Sarah McNulty.
